Corporate Stance on the Environment

Heeding Pope Francis’ call in Laudato Si: Care for our Common Home as well as the 2030 United Nations’ Sustainable Development Goals; the Daughters of Charity of the United States and Canada adopt a stance toward protecting and reviving the earth on a local, national, and global level. We will animate this stand by:

- **Educating ourselves** on environmental issues affecting our local cities, North America and the World;
- **Fostering a consciousness of care** for the environment within our local communities and ministries and **implementing alternative behaviors** whenever possible;
- **Participating** in the Global Catholic Climate Movement and other **partnerships** to support changes in governmental, corporate and personal practices which impact the care of our “home”.
- **Supporting legislation** that aims to protect the earth from further degradation and promotes environmentally friendly processes;
- **Praying** that all people care for “Our Common Home” by living in solidarity with the Earth, its creatures and natural resources.
